

I. M. P. A. C. T.

Misbehavior often occurs when survival adaptations clash with social expectations.
- Unknown

Framework of Restorative Practices:

Continuum of Practices

The focus is building a strong & healthy community

Fair Process

Individuals will most likely trust and cooperate with the system if the community feels they have been respected and understood.

Social Discipline Window

An approach that supports healthy communication by working **WITH** people to help grow and repair relationships, which provides high levels of support & structure.

Affective Statements & Questions

Acknowledges the student's behavior & how it impacts others, which follows with a learning opportunity to reflect on their actions & learn empathy.

Compass of Shame

Individuals react to shame in various ways, and this occurs when our positive view has been interrupted.

Impromptu Conversations

An opportunity to support positive behavior or to address concerning behavior by using affective language.
